Paraplegia **30** (1992) 915-922 © 1992 International Medical Society of Paraplegia

Indexes

Subject Index

Ambulation
Laufband locomotion with body weight support improved walking in persons with severe spinal cord injury, 229
Physiological cost index of paraplegic locomotion using the ORLAU ParaWalker, 246
Spinal cord injury: prognosis for ambulation based on quadriceps recovery, 762
Using the reciprocating gait orthosis and FES, 239
Anaesthesia, The effect of intravesical Marcain instillation on hyperreflexic detrusor contractions, 127

Baclofen, Pregnancy in a quadriplegic patient treated with continuous intrathecal baclofen infusion to manage her severe spasticity. Case report, 527
Bioengineering, Developments for paraplegic patients, 61
Blood pressure, Cardiovascular and vasoactive hormone responses to bladder distension in spinal and normal man, 348
Bone formation, Is the appearance of periarticular new bone formation related to local neurological disability, 361
Bone metabolism
Bone mineral and hormone status in paraplegics, 343
Increased serum osteocalcin levels in patients with paraplegia, 204
Book reviews, 529, 752, 812
Brown-Séquard Syndrome
Due to Semple antirabies vaccine: case report, 181
Modified Brown-Séquard syndrome following coronary artery bypass graft: case report, 178
Bursitis, Septic ischial bursitis in patients with spinal cord injury, 200

Cardiovascular disease
Depressed serum high density lipoprotein cholesterol levels in veterans with spinal cord injury, 697
Risk factors for cardiovascular disease in chronic spinal cord injury patients, 381
Care
Fifty years on fundamentals in spinal cord injury care are still important, 10
The spinal cord injury primary physician. One riot - one ranger, 17
Young spinal cord injured patients in nursing homes: rehospitalization issues and outcomes, 828
Catheterisation, Correlation of bacteriological flora of the urethra, glans and perineum with organisms causing urinary tract infection in the spinal injured male patient, 851
Cerebral hemorrhage, Fatal cerebral hemorrhage due to autonomic dysreflexia in a tetraplegic patient: case report and review, 355
Community reintegration, And quality of life following spinal cord injury, 108
Cost, New estimates of the direct costs of traumatic spinal cord injury: results of a nationwide survey, 834

Dislocations, Recurrent dislocations of the hip in adult paraplegics, 587
Drug therapy
Pharmacological treatment of acute spinal cord injury: current status and future prospects, 102
Prophylactic low dose heparin anticoagulant therapy in patients with spinal cord injury: a retrospective study, 169
The role of intracavernous injection of vasoactive medications for the restoration of erection in spinal cord injured males: a three year follow up, 118
Dysreflexia, autonomic, Fatal cerebral hemorrhage due to autonomic dysreflexia in a tetraplegic patient: case report and review, 355

Electric stimulation
A clinical exercise system for paraplegics using FES, 647
Effects of FES on evoked muscular output in paraplegic quadriceps muscle, 467
Of the lumbrical muscles in an incomplete quadriplegic patient: case report, 223
Reduction of seating pressure using FES in patients with spinal cord injury. A preliminary report, 474
Epidemiology
A cross-sectional study of the relationship between age and current health status for persons with spinal cord injury, 820
Spinal cord injury due to suicide attempts, 139
Exercise therapy
Aerobic power of competitive paraplegic road

racers, 428
A clinical exercise system for paraplegics using FES, 647
Enhanced carotid–cardiac baroreflex response and elimination of orthostatic hypotension 24 hours after acute exercise in paraplegics, 872
Maximal exercise response of paraplegic wheelchair road racers, 573

Follow-up studies
Long term follow up of patients with cauda equina syndrome due to intraspinal lipoma, 366
Long term follow up of spinal cord injury caused by penetrating missiles, 131
Lumbar spine dimensions in parapetetic patients: a ten year follow-up study, 729
The role of intracavernous injection of vasoactive medications for the restoration of erection in spinal cord injured males: a three year follow up, 118
Tracheostomy in spinal cord injury: frequency and follow up, 656
Voiding by increased abdominal pressure in male spinal cord injury patients – long term follow up, 253

Fractures
Hangman's fracture in Singapore (1975–1988), 160
Physeal injuries in myelomeningocele patients, 791
Thigh compartment syndrome secondary to intertrochanteric hip fracture in a quadriplegic patient: case report, 376

Geriatrics, The older adult with a spinal cord injury, 520
Graves' disease, Complicating myelopathy, 593
Gunshot wounds
Long term follow up of spinal cord injury caused by penetrating missiles, 131
Oesophageal perforation: a delayed complication following traumatic spinal cord injury: case report, 449

Hand
The application of a modified neuroprosthetic hand system in a child with a C7 spinal cord injury. Case report, 598
The hyperflexed seemingly useless tetraplegic hand: a method of surgical amelioration, 457
Hydatid disease, Primary multiple spinal extradural hydatid cysts of the literature: case report and review, 517
Hyperhidrosis, Prevalance in patients with spinal cord injury and an evaluation of the effect of dextropropoxyphene hydrochloride in therapy, 184
Hyperpyrexia, In spinal injury patients, 339
Hypotension
Exertional: Exertional hypotension in thoracic spinal cord injury: case report, 261
Orthostatic: Enhanced carotid–cardiac baroreflex response and elimination of orthostatic hypotension 24 hours after acute exercise in paraplegics, 872
Symptomatic postprandial hypotension in high paraplegia. Case report, 582
International Medical Society of Paraplegia
Eleven years on, 9
Reflections on the IMSOP and management of paraplegia, 5
The scientific committee of the IMSOP, 22

Lipids, Lipid profiles in spinal cord injury, 775

Magnetic resonance imaging (MRI)
Current advances in MRI in spinal cord trauma: review article, 305
Cystic cord lesions and neurological deterioration in spinal cord injury: operative considerations based on MRI, 661
Suggested MRI criteria for surgical decompression in acute spinal cord injury. Preliminary observations, 704
Meetings and Notices, 75, 149, 227, 303, 379, 454, 531, 607, 682, 757, 817, 913
Motor vehicle accidents, Motor vehicle crashes and spinal injury, 543
Muscles
A comparative study of the muscle strength and mass of the arm flexors and extensors in paraplegic and in non-paraplegic basketball players, 509
Effects of FES on evoked muscular output in paraplegic quadriceps muscle, 467
Postural thixotropy: a significant factor in the stiffness of paralysed limbs, 113
Spinal cord injury: prognosis for ambulation based on quadriceps recovery, 762

Neoplasms
Acute paraplegia resulting from haemorrhage into a spinal neurofibroma, 445
Long term follow up of patients with cauda equina syndrome due to intraspinal lipoma, 366
N-Nitrosamine generation by urinary tract infections in spine injured patients, 855
Preoperative embolisation, transpedicular decompression and posterior stabilisation for metastatic disease of the thoracic spine causing paraplegia, 292
Results of the combined treatment of paediatric intraspinal tumours, 718
Nerve regeneration
Changes in thyroid hormones, thyroid stimulating hormone and cortisol in acute spinal cord injury, 401
Neural transplants in spinal cord injury, 23

Short-latency somatosensory evoked potentials (SSEPs) of the tibial nerves in spinal cord injury, 502
Spinal cord repair: future directions, 83
Nerve root anomalies, Surgical considerations in patients with lumbar spinal root anomalies, 370
Neuroimaging
Current advances in MRI in spinal cord trauma: review article, 305
The evolution of neuroimaging of spinal cord injury patients over the last decade, 39
Neurological sequelae
The management of an old fused hip after the occurrence of paraplegia, 220
Neurological and skeletal outcomes in 113 patients with closed injuries to the cervical spinal cord, 533
The role of motor evoked potentials in the management of hysterical paraplegia, 300
Vertebral osteomyelitis following manipulation of spondylitic necks — a possible risk, 788
Neuropathic bladder
Bacterial biofilm formation in the urinary bladder of spinal cord injury patients, 711
Bladder outlet resistance decreasing operations in spinal cord damaged patients with vesicoureteral reflux, 256
Bladder pressure and kidney function in children with myelomeningocele: review article, 153
Bladder rehabilitation with dorsal rhizotomy and ventral neuroprosthesis, 783
Cardiovascular and vasoactive hormone responses to bladder distension in spinal and normal man, 348
Correlation of bacteriological flora of the urethra, glans and perineum with organisms causing urinary tract infection in the spinal injured male patient, 851
Endoscopically guided bladder neck suspension for continence in paraplegic women with implant driven micturition, 336
N-Nitrosamine generation by urinary tract infections in spine injured patients, 855
Neurourology in spinal cord injury patients, 50
Studies of bladder sensitivity in patients with myelodysplasia, 333
Urinary lithiasis induced by sulfamethoxazole in a patient with tetraplegia. Case report, 750
Use of penile prostheses to maintain external condom catheter drainage in spinal cord injury patients, 327
The value of urodynamics and bladder management in predicting upper urinary tract complications in male spinal cord injury patients, 437
Voiding by increased abdominal pressure in male spinal cord injury patients — long term follow up, 253
Neurophysiology, Development of neurophysiological aspects of the spinal cord during the past ten years, 92
Neurourology, In spinal cord injury patients, 50
Nutrition, An examination of dietary intakes and nutritional status of chronic healthy spinal cord injury individuals, 880

Obituaries
Bedbrook, George Montario, 145
Ungar, Dr Gerald Henry, 681
Oesophageal trauma
In patients with spinal cord injury, 903
Oesophageal perforation: a delayed complication following traumatic spinal cord injury: case report, 449
Orienting, Event-related brain potentials during orienting to auditory and visual stimulation in spinal cord injury patients, 864
Ossification, Of the posterior longitudinal ligament in the thoracic spine causing intermittent paraplegia in an Englishman: case report, 277
Ossification, heterotopic
Computerized quantitative radionuclide assessment of HO in spinal cord injury patients, 803
Human osteoblast stimulation by sera from paraplegic patients with heterotopic ossification, 165
Incidence and risk factors in the appearance of HO in spinal cord injury, 740
Osteochondroma, Solitary spinal osteochondroma causing neural syndromes, 678

Pain, The algesic syndrome in spinal cord trauma, 497
Paraplegia
An appreciation of *Paraplegia*, the International Journal of the Spinal Cord, and its role as a coordinator of information, 21
A message from Dr D. F. Apple Jr, 20
Hysterical: The role of motor evoked potentials in the management of hysterical paraplegia, 300
Views from the Chief Scientist Office, 14
The way ahead, 3
Pregnancy
Audit of five years' experience of pregnancy in spinal cord damaged women. A regional unit's experience and a review of the literature, 631
Labor and delivery post spinal cord injury, 890
Pregnancy in a quadriplegic patient treated with continuous intrathecal baclofen infusion to manage her severe spasticity. Case report, 527
Sexual issues of women with spinal cord injury, 192
Pressure sores
The effectiveness of a pressure clinic in preventing pressure sores, 267
The neurosensory musculocutaneous tensor fasciae

latae flap: long term results, 396
A personal comment, 116
Postoperative wound infections following myocutaneous flap surgery in spinal injured patients, 734
Reduction of seating pressure using FES in patients with spinal cord injury. A preliminary report, 474
Use of the biceps femoris following failed inferior gluteal flap transfer. Case report, 746

Prostheses
Neural prostheses: clinical applications of FES in spinal cord injury, 96
Use of penile prostheses to maintain external condom catheter drainage in spinal cord injury patients, 327

Psychological reactions, A psychological study of spinal cord injury patients involved in the Madras Paraplegia Project, 799

Quality of life
Mortality, morbidity, and psychosocial outcomes of persons spinal cord injured more than 20 years ago, 617
Spinal cord injury: ten and fifteen years after, 690

Reflexes, Anourethral reflex. Description of a reflex and its clinical significance: preliminary study, 210

Rehabilitation
Assessment in patients with spinal cord injury: methodological considerations, 759
Clinical rehabilitation research advances in spinal cord injury, 73
Health and psychosocial issues of individuals with incomplete and resolving spinal cord injury, 282
An outline of the programme of rehabilitation medical services in the People's Republic of China: 1991–1995, 592
Progress of comprehensive rehabilitation of patients with spinal cord lesions in Germany 1962–1990, 68
Psychological approach to the rehabilitation of the spinal cord injured: the contribution of relaxation techniques, 425
Psychological and sociological theories concerning adjustment to traumatic spinal cord injury: the implications for rehabilitation, 317
Return to work after spinal cord injury: the potential contribution of physical fitness, 563
Some thoughts on progress, 70
Vocational decision-making by sixty spinal cord injury patients, 420

Research
Clinical rehabilitation research advances in spinal cord injury, 73
Psychosocial research in spinal cord injury: the state of the art, 58

Respiration
Breathing pattern adjustments during the first year following cervical spinal cord injury, 479
The effect of intermittent positive pressure breathing on lung volumes in acute quadriparesis, 121
Electromyographic registration of diaphragmatic fatigue during sustained trunk flexion in cervical cord injured patients, 669
Repeated measurements of pulmonary function following spinal cord injury, 768
The role of the diaphragm in trunk extension in tetraplegia, 389
Tracheostomy in spinal cord injury: frequency and follow up, 656

Sauna, The effects of sauna on tetraplegic and paraplegic subjects, 410

Sexual function
An open trial of vacuum penile tumescence: constriction therapy for neurological impotence, 550
The role of intracavernosal vasoactive agents to overcome impotence due to spinal cord injury, 273
The role of intracavernous injection of vasoactive medications for the restoration of erection in spinal cord injured males: a three year follow up, 118
Sexual dysfunctions in the spinal cord injured, 54
Sexual issues of women with spinal cord injury, 192
Transcutaneous nitroglycerin in the treatment of erectile dysfunction in spinal cord injury, 554

Social reintegration, The social and vocational outcomes of spinal cord injury patients, 214

Spasticity
Peripheral nerve block with phenol to treat spasticity in spinal cord injury patients, 808
Pregnancy in a quadriplegic patient treated with continuous intrathecal baclofen infusion to manage her severe spasticity. Case report, 527

Spina Bifida
Bladder pressure and kidney function in children with myelomeningocele: review article, 153
Interdisciplinary treatment of Spina Bifida children, 683
Physeal injuries in myelomeningocele patients, 791

Spinal cord compression
Management of pyogenic vertebral osteomyelitis with spinal cord compression in the elderly, 795
Suggested MRI criteria for surgical decompression in acute spinal cord injury. Preliminary observations, 704

Spinal cord injury
Associations: a British perspective, 37

Early surgical treatment, 43
Indian spinal injuries centre, 86
The last decade and the next, 77
Management of patients in Greece, 135
Mortality, morbidity, and psychosocial outcomes of persons spinal cord injured more than 20 years ago, 617
New spinal cord injury standards, 1992, 90
In Scotland, 35
A second traumatic spinal cord injury: associated risk factors. Case report and review, 288
Spinal cord lesion after penicillin gluteal injection, 442
Ten and fifteen years after, 690
Traumatic injury to the spinal cord. Prevalence in Brazilian hospitals, 636
Traumatic spinal cord injury in Turkey, 641
In the 21st century, 31
Spinal cord monitoring (SCM), Recent developments in neurosurgical SCM, 609
Spinal cord unit, The evolution of the spinal cord unit: East and West, 27
Staff, An investigation of the relationship between environmental factors and job satisfaction in intensive nursing, with particular reference to spinal trauma, 489
Suicide
Following acute traumatic spinal cord injury, 173
Spinal cord injury due to suicide attempts, 139

Thrombosis, deep vein, Mechanical plus pharmacological prophylaxis for DVT in acute spinal cord injury, 558
Treatment, Conservative versus surgical treatment of the cervical and thoracolumbar spine in spinal trauma, 46

Upper limbs
A comparative study of the muscle strength and mass of the arm flexors and extensors in paraplegic and in non-paraplegic basketball players, 509
The current state of the management of the upper limb in tetraplegia, 65
